

KARTHIK B

Python Backend Engineer

Bengaluru, India | +91 9952749512 | karthik042412@gmail.com | karthiktechie.vercel.app | linkedin.com/in/karthik04 | github.com/karthik0497

PROFILE SUMMARY

Python Backend Engineer with 3 years of production experience building and supporting scalable backend systems and REST APIs. Hands-on experience with Python, FastAPI, PostgreSQL, Docker, and Linux-based deployments in production environments. Open to overseas opportunities, with a strong ability to quickly learn and adapt to new technologies and systems.

SKILLS

Backend & Programming: Python, FastAPI, REST API Development, PostgreSQL, SQL, Database Design, Django (Basic)

Backend Infrastructure & Deployment: Linux, Docker, On-Premise and Server Deployments, Nginx, API Gateway, MQTT, Bash Scripting, SSH, tmux

Monitoring & Production Support: System Monitoring, Logging, Prometheus, Grafana, Production Troubleshooting

Networking (Basic): IP Addressing, Router Configuration (Basic), Port Configuration, Network Troubleshooting

Version Control & Tools: Git, GitHub, Postman, Linux CLI

Client-Side (Supporting): HTML5, CSS3, JavaScript (Basic), Bootstrap, Frontend UI Development, Responsive Layouts

WORK EXPERIENCE

Software Engineer – Leapmile

August 2023 – Present

- Designed, developed, and maintained scalable backend services and REST APIs using Python and FastAPI for production applications
- Built and operated backend services deployed on on-premise Linux production systems supporting real-time operational workflows
- Designed and managed PostgreSQL databases, including schema design, data migrations, and consistent data handling in production
- Owned backend services end-to-end, covering feature development, production deployments, monitoring, troubleshooting, and support
- Containerized backend applications using Docker and managed deployments on on-premise production machines
- Performed production deployments and service operations using SSH and tmux, ensuring stable and controlled backend releases
- Integrated MQTT-based asynchronous communication for reliable real-time data exchange between backend services
- Implemented monitoring and logging to track backend health, identify issues early, and maintain production stability
- Diagnosed and resolved backend and infrastructure issues using logs, system metrics, and Linux command-line tools
- Worked closely with frontend and mobile teams to design and deliver backend APIs for internal tools and dashboards
- Integrated backend APIs with ROS2-based automation pipelines to support system testing and production readiness

Web Development Intern – BasketHunt Pvt Ltd

January 2023 – July 2023

- Learned and implemented basic web page designs using HTML, CSS, and JavaScript. Assisted in building simple frontend pages for local business websites. Supported frontend development tasks and minor updates under guidance of senior developers

GPS Operations Partner – BlackBuck Logistics

2021 – 2022

- Supported GPS-based fleet operations and basic system coordination

EDUCATION

Bachelor of Engineering – Automobile Engineering

June 2016 – November 2020

Paavai College of Engineering, Anna University | Percentage: 70%

PROJECTS

- Crypto Price Notification – Telegram Bot:** Built an asynchronous Python-based Telegram bot to provide real-time cryptocurrency price alerts, portfolio tracking, trending coins, and market news. Implemented async API calls using CoinMarketCap APIs, stored data in PostgreSQL, and deployed services using Docker. **Tech Stack:** Python (Async), PostgreSQL, Telegram Bot API, CoinMarketCap API, Docker. https://github.com/karthik0497/telegram_crypto_notification_bot | https://t.me/Crypto_priceloop_bot
- Freelance Spare Parts Website:** Designed and deployed a responsive spare parts website with backend and frontend integration for a real business use case. **Tech Stack:** HTML, CSS, JavaScript paramountautointegrals-cars.vercel.app

CERTIFICATIONS

- Postman API Fundamentals – Student Expert** – Postman (REST APIs, HTTP methods, request/response handling, authentication)
- Python Web Development** – Live Wire Institute (Python, Django, HTML, CSS, JavaScript, Bootstrap)

LANGUAGES

Tamil (Native), English (Professional), Malayalam (Beginner)
